TAX ON N. Y. HISTORICAL.

Mistake at Sale for Arrears-Salvation Army Headquarters Go. Too.

The New-York Historical Society's building, at No. 170 2d-ave., and the Salvation Army headquarters, at No. 124 West 14th-st., were sold sterday for arrears of taxes, but the sale of the first parcel was an error, and the army will contest the sale of its headquarters. Altogether the sales realized about \$350,000. Out of 530 parcels in the second section, 250 were put under the hammer yesterday. The next section will he sold on Wednesday of next week.

The Historical Society's building was sold to satisfy a claim of \$26 10 for water rent for 1897. This bill the society paid and holds a receipt.

"The purchaser has bought a pig in a poke," said Charles A. Sherman, treasurer of the sodety, yesterday. "We were told by the city some time ago that we owed the water bill, but when we looked it up we found our receipt and showed it to the collector of arrears. He said he would strike the entry from the schedule, but probably he forgot it."

The claim against the Salvation Army headquarters for \$404.58 for 1899 taxes. An offer of seven years by I. Roth, of No. 9 Nassaust., was accepted.

The most valuable piece mentioned in Section 2 was the University Building, Waverley Place and Washington Square. The valuation was set down at \$325,000. There are against the property \$6,701 30 in taxes, which have been accumulating since 1898. There was much interest aroused when the number was reached, but it was announced that the property would not be

term for which he bids must begin with the day of sale. Most of the bidding was done by speculators, who counted on the owner coming forward within the period to clear the property. One parcel sold was a two story house and a lot at No. 410 East 13th-st., said to have belonged for years to Senator John Poley. The accrued taxes amounted to \$3,000. It was taken for fifteen years by Cherry & Weecker, No. 464 Grand-st., who were frequent bidders at the Grand-St., who were frequent blodders at the sale A parcel, Nos. 604 to 608 Broadway, flear East Houston-st., assessed to Charles V. 248 lst-ave. for a term of four years. This was the most valuable sale of the morning. The Grosvenor, at 5th-ave. and 10th-st., was on the list because of \$931 unpaid water tax in 1965. S. M. Barber, of No. 1,169 Madison-ave, became the successful bidder at three and one-half years. The smallest parcel put up is in Dominick-st., between Hudson and varick sts. The person to whom it is assessed is unknown. Against the property is a bill of \$18 25 for taxes, 1899 to 1990. This lot is said to be an alleyway between two buildings. As the city wants the taxes, it was allowed to go for three years to J. J. Boyland, of No. 402 West 5lst-st.

The property at No. 801 Greenwich-st. was offered because in 1893 an assessment of \$5 was neglected. The property is assessed to A. L. Reynolds. It went to Henry Wise, of No. 290 Bront-st., on a bid of two years. Collector Slattery announced that the Kings County Lighting Company had paid on account of franchise tax \$27.765.76, and the Edison Electric Illuminating Commany of Brooklyn for the same reason paid in \$254,461 27

in \$254.461 27.
Other collections on individual parcels in arrears amounted to \$81.082 71, making the total payments to the city for the day \$613,249 74.

TOWERS ALONG SUBWAY.

Mining Engineer's Plan for Getting Supplies of Pure Air.

Several mining engineers in this city, who were asked yesterday for their views, unanimously condemned the atmospheric condition of the subway and expressed the opinion that a cheap and efficacious remedy of the evil was possible. They said a mistake was made in not engaging on the construction of the underground system an experienced mining engineer, whose advice would have made the present condition impossible.

na of the first and most important considerations in the construction of a mining plant, they sald, was the proper ventilation of the mine. Compared with the ventilation of a mine three thousand feet deep with pure air, the problem of bettering the condition of the subway, only a little way below the surface, was regarded as simple by engineers.

George W. Maynard, who has had thirty years' experience as a mining engineer, said:

with the exception of the utter lack of venti-lation in the lower part of the subway tunnel, the construction, I think, is perfect. A few evenings ago, when it was not very warm on the street, I rode from Wall-st. to 42d-st., and when I reached my destination, I felt as though I had been in a Turkish bath.

The present condition, in my opinion, could be

The present condition, in my opinion, could be remedied easily, and at an insignificantly small expense. The cheapest, best and quickest way to bring about this much needed improvement would be the building of towers at certain distances along the route. These could be constructed of concrete or terra cotta and would not take up much pround space. If necessary not take up much ground space. If necessary fans could be employed to drive out the warm and impure air and force in the fresh air. The problem of ventilating the subway is really a simple one and certainly something ought to be

PANIC IN SWEATSHOPS.

Small Blaze Sends Girls Helter-Skelter to Street.

More than a thousand tailor shop employes at No. 47 to 51 Pike-st., mostly young girls, were in a wild panie by a small fire yesterday afternoon. The wildly shricking and terrified girls and men ran through the seven floors of the building, which is occupied by seventeen contracting tailors, whose places are of the sweatshop order. Patrolmen Clem and Flynn, of the Madison-st. station, with the aid of Abraham William Ziegler got her first definite report of Horwitz, kept clear the exits and stairways of the threatened contest of her husband's will the building during the maddened rush of the girls, at the same time doing their utmost to pacify the crowd. It was necessary to pull some of the girls from the wedge which constantly formed at the door. The fire escapes were den-gerously overloaded with girls from the upper

The excitement was precipitated by Ichi Smelki, an old man, who discovered fire on the altar of the synagogue, on the second floor. Smelki is the rabbi of the Progressive Brothers of Nebis, who use the synagogue. Smelki rushed through the hallway of the building, crying Fire which was taken up instantly by a dozen others, immediately starting a wild panie. The fire was extinguished by a single company. Many girls fainted and were painfully bruised, but no one was seriously hurt.

Tries Suicide at Bridal Party of Girl Friend.

[BY TELEGRAPH TO THE TRIBUNE | Atlantic City, N. J., June 21.-James B. Reed, a graduate from Princeton University in 1902, was compelled to remain in jail to-day while the girl whom he said he had loved for five years without ever telling her so. Miss Edna Mae Castner, was wedded to Robert M. Sturgis, a real estate broker of St. Louis. Miss Castner thought Mr. Reed merely a friend.

Late last night the bridal party, of which Reed was one, walked out on the steel pier. Suddenly Reed rushed to the railing, shouting, "Edna, Edna, my darling, this is all for you!" and would have jumped into the ocean had not some of the party caught him in time. He was escorted to the board walk, when he dashed away across the beach and into the ocean. Robert Willard and Sydney Scherlin, two young New-York visitors, saw him and ran after him into the

surf, pulling him back to shore after a struggle. Both Miss Castner and her family were deeply shocked over the affair, and deny positively that Mr. Reed had any reason to believe that he was a favored suitor. Miss Castner was too ill to be seen this morning.

A BLOW TO THE UNIONS.

Attempt to Force Laborers to Combine Found Illegal.

Boston, June 21.-The Massachusetts Supreme Court handed down a decision to-day holding of Brooklyn for the same reason paid | that the attempt to force all laborers to combine in unions is against the policy of the law, because it aims at monopoly of the labor market.

> The decision was in the case of Michael F. Berry against Jerry E. Donovan, representative of the Boot and Shoe Workers' Union, and the defendant is held personally liable to damages for obtaining the discharge of Berry, a nonunion shoemaker, from his place in a Haverhill shoe factory because he was not a member of the union. The court holds that the contention that the discharge of Berry was justified on the score of warrantable competition was not a good defence in the case. The plaintiff was authorized to recover judgment on the \$1,500 verdict ordered at a trial in a lower court.

The employing firm was under agreement with the union to hire only union men and not to retein a workman after a notice from the union that he was objectionable. Donovan declared that he acted under this agreement, but the court holds he was not justified. The court says:

We have no desire to put obstacles in the way of employes who are seeking by combination to obtain better conditions for themselves and their families. We only say that under correct rules of law and with a proper regard for the rights of individuals rabor unions cannot be permitted to drive men out of employment because they choose to work independently.

DENY ZIEGLER CONTEST.

Relatives Declare No One Threatens

The statement that the will of William Ziegler will be contested by his sister, Mrs. Henry K. Shields, of Los Angeles, is not given much credence. William Ziegler left his entire fortune, estimated at \$30,000,000, to his adopted son. He made no provision in his will for his sister, Mrs. Henry K. Shields, nor for his nieces, Mrs. Arthur Little, of Monrovia, Cal., and Mrs.

Russell Price, of Duarte, Cal. It is known that Mr. Ziegler was an ample provider for his relatives in his life, and it is not believed that they will try to break the will, which was filed in the Probate Court of this city on June 4. L. B. Smith, who is connected with the Ziegler estate, was seen at his office yesterday. When asked if he knew that Mrs. Henry K. Shields would contest the will, he said:

I know nothing about it. It is probably only a newspaper story. The papers are looking for sensations, and this story probably originated in the fertile brain of some reporter. From time to time statements have appeared in various papers | \$1 00 for No. 2 hard winter to \$1.17 for No. 1 North credited with having been made by Willie Zieg-ler, but the boy has never opened his mouth to a reporter in regard to discovering the North

Stamford, Conn., June 21 (Special) .- Mrs. from a New-York evening paper at her summer home at Noroton, Conn., this afternoon. Whatever comment she made is unknown. Said a member of the household:

Mrs. Ziegler does not know Mrs. Henry K. Shields of Los Angeles; nor does she know Mrs. Arthur Little or Mrs. Russell Price. Mr. Ziegler had no sister in California. He had two half-sisters only, the Misses Brandt, of Davenport, Iowa. They are satisfied with the will. We know nothing official of any contest. I think you will find that these people are impostors. There are lots of so-called Zieglers and Brandts in this country who would like to get a slice of Mr. Ziegler's fortune.

Definite news of the impending contest, however, does not come wholly as a surprise at the Noroton home, it is said. There are people close Noroton some, it is said. There are people close to Mrs. Ziegler who have all along expressed the belief that there would be a contest. It is said that Mrs. Shields is a full sister of Mr. Ziegler, and that Mrs. Little and Mrs. Price are daughters of Mrs. Shields.

GAYNOR AND GREENE GET DELAY. Montreal, June 21.-On motion of counsel for Gaynor and Greene the habeas corpus proceedings were postponed until Tuesday, counsel stating that the motion to quash his clients' appeal to the Su-preme Court would be argued on Monday. New Inspector's Men Find Poolroom in Full Operation.

Police Inspector Hogan vesterday signalized his promotion by making a raid on a poolroom in the district where he had been acting inspector. He sent a squad of his detectives to the poolroom, which was on the third floor of a house in East 10th-st., late in the afternoon, capturing 250 persons in the place, but permitting all except twelve of them to go.

Two weeks ago C. Johnson, whose card describes him as a dealer in wall paper at the house, obtained an injunction against the further interference by the police with his business. The police insisted that they were sure a poolroom was being run there, and patrolmen were stationed in front of the place.

On Friday last Detective Manchester went before Magistrate Wahle and obtained eight warrants for men in the place, and it was planned to make the raid yesterday about the time of the fifth race at the Sheepshead Bay racetrack. Detectives and raiding implements were bundled into a big moving van, which was backed up in front of the building. Before the lookout suspected what had happened the detectives bolted from the van, overpowered him and dashed up-

At the head of the stairs on the third floor they found, as Manchester had warned them, a they found, as Manchester had warned them, a fruit stand which served as a barrier and look-out station. Then, with bars and axes, they smashed in the heavy bolted door and found themselves in a room containing 250 men. At one end men were paying and taking money, while at the other end telephones buzzed and telegraph instruments ticked. There was a mad scramble for rear windows, but they were scramble for rear windows, but they were barred, and the employes of the place were busy trying to throw racing sheets and other articles out of the windows.

out of the windows.

The detectives picked out five men, whom they charged with maintaining a poolroom, and seven more who were accused of "aiding and abetting." The twelve prisoners were taken to the

Mercer-st, station in a patrol wagon.
After the police had forced the entrance patrons of the poolroom continued to drop in, and one of them was indignant when a detective refused to accept his money for a bet. The police did not know whether Johnson was among the twelve prisoners, but none of them gave such a

public and police reasons; that they therefore started out in their new fields without any handicap, and that it was only just for him to expect from them a high degree of efficiency, integrity and zeal in performing their duties. The Commissioner exemplified his statement by saying that if outstiers said they had contributed in the smallest way toward having the men promoted they could take his word for it that they were liars.

The inspectors then assured the Commissioner that what he said was true, and pledged themselves to give the best that was in them to the service. The new inspectors were not assigned to district vesterday. TRADE IN CHICAGO. [BY TELEGRAPH TO THE TRIBUNE.] Chicago, June 2.-Wheat ruled strong the greater

part of the session, but near the end there was extensive taking of profits by the longs, and the close was at a shade under the final price of the day be-fore for July and unchanged for September. There were sales made here to millers of about 160,000 bushels of wheat of various grades, ranging from ern. Corn also was strong till near the end, when profit taking sales caused a sharp reaction, and closing prices were not far from the same as yesterday's, old July being 1/3c lower and old September sc higher. Oats were firm, with small change in price. Provisions were dull, but steady.

On reports of light showers in the Southwest, with little interruption to harvesting, taken in conjunction with the conditions in the Northwest, selling was encouraged at the opening to-day at from %c to %c below yesterday's close. Buying at the decline was good enough to turn the tide, and initial losses were recovered on this and reports of red rust in the Northwest. There were no local receipts, but 13 cars were from private houses. Estimate for to-morrow, 1 car. July sold from 900 down to 88%c, closing at 88%c to 89c. September closed at 84%c, after selling as high as 87%c.

Corn opened easier on feeble weather and larger local receipts. The market declined at the start, reacted and closed lower. Receipts were 411 cars, of which 119 were of contract grade, and \$19,300 bushels of the same quality were transferred from private houses. Estimate for to-morrow, 428 cars. The highest for July was 55%c; the lowest, 54%c; the close was 54%c to 54%c. September closed at 53%c, after selling as high as 53%c to 53%c and as low as 52%c.

Business in the oats pit was active at the opening, with local traders taking profits on yesterday's purchases. Prices showed strength on general buying, the market holding steady to a shade higher. Local receipts were & cars, with 102 estimated for to-morrow. Shipments were \$25,600 bushels. The market remained quiet and dull the last hour. July closed at the bottom, 114;e; the highest was 31%c. September sold from We down to 29%c, closing at 29%c to 29%c.

Provisions ruled dull and stendy at a fractional decline from the previous close. There was some corpus had been granted without notice to the counsel for the United States government. Had he received notice he would have pointed out to the judge that it was extremely doubtful whether his lordship had jurisdiction to hear and adjudge upon the writ, for Section 15 of the Extradition act said the court must decide such a question, and not a judge. This writ, he contisned, must be heard and decided by a full bench or in the Superior Court, and not by a judge in chambers.

DEMURRAGE LEGISLATION DELAYED.

Action Postponed Until New-Haven Road Fulfils Its Promise.

Hartford, Conn., June 21 -Legislation on the matter of railroad demurrage in Connecticut has been postponed until the next General Assembly, on recommendation of the Committee on Railroads, in a report made to the House to-day. The New-York, New-Haven and Hartford Railroad Company had petitioned for relief from the present law, which allows consignees four days in which to un load cars, and President Mellen in person appeared before the committee in favor of a two day law.

Much opposition to the petition developed, as was the case two years ago, and passage of a bill changing the law was not anticipated. Chairman Bradstreet of the committee in explaining the report to-day said that it was advisable to delay action on the demurrage matter until it was seen that President Mellen could fulfil his promise of better handling of freight on the New-Haven system.

Haven and Hartford Railroad, and at one time a sub-committee of the local union was present. It was said that the matters discussed related to the working of the Brown system of merits and the operation of the trainmen's schedule. Mr. Morris-sey never before has been here, but his visit, it is said, has no especial significance, as he had been in Boston and was returning West.
